

Food and Drug Rockville MD 20857

o. 98E-0781

The Honorable Q. Todd Dickinson Deputy Assistant Commissioner for Patent Policy and Projects Office of the Assistant Commissioner for Patents U.S. Patent and Trademark Office Crystal Park Building 2, Suite 919 Washington, DC 20231

Dear Commissioner Dickinson:

DEC 2 8 1999

This is in regard to the patent term extension application for U.S. Patent No. 5,270,317 filed by Sanofi under 35 U.S.C. § 156. The patent claims the human drug product Avapro® (irbesartan), new drug application NDA 20-757.

In the November 19, 1998, issue of the Federal Register (63 Fed. Reg. 64268), the Food and Drug Administration published its determination of this product's regulatory review period, as required under 35 U.S.C. § 156(d)(2)(A). The notice provided that on or before May 18, 1999, 180 days after the publication of the determination, any interested person could file a petition with FDA under 35 U.S.C. § 156(d)(2)(B)(i) for a determination of whether the patent term extension applicant acted with due diligence during the regulatory review period.

The 180-day period for filing a due diligence petition pursuant to this notice has expired and FDA has received no such petition. Therefore, FDA considers the regulatory review period determination to be final.

Please let me know if we can provide further assistance.

Sincerely yours,

Associate Director for Policy
